

# Use of ICT: online classes, OHP

## USE of ICT - INFORMATION COMMUNICATION TECHNOLOGY

- ICT is effectively used for quick communication with students, **Notes** materials, **model papers** etc are shared with students and colleagues.
- We use audio visuals – more than **300 videos** are available.
- Use of **WhatsApp** – to communicate and share subject information with the students.
- **Documentaries** – we are training students in making documentaries on varied topics.
- Computer generated **PPT** – we train students in basics of computer and then teach them to make and present ppt.

## TEACHING METHODS IN PRACTICE OTHER THAN LECTURE METHODS:

- **Audio visual slides and Movies**
- **Video Cassettes**
- **Using video camera, Mobile phones and digital camera subject related matter is recorded and shown to the students.**
- **Study material is sent to the students via whatsapp etc**
- **Documentaries on Biology topics involving students are being made.**
- **Field visits.**

# E-content development- Recorded videos, notes etc.
