

With honest disposition to enlarging the ambit of education beyond the confines of the educational campus, our college carries out various educational awareness programmes like National Education Day, Eduthon, etc every year. Living up to this tradition of social responsibility, every year on 11<sup>th</sup> November we celebrate National Education Day to commemorate the birth anniversary of our first Education Minister, Moulana Abul Kalam Azad. On this occasion, awareness programmes are carried out to educate the masses about literacy.

Eduthon - walk for education was organized by the staff and students of our college on 5th September to bring literacy awareness among the people. Eduthon is the reaffirmation of our commitment to education, which is the vision of our founder Dr. Mumtaz Ahmed Khan. The walkathon pressed its way through the busy localities of Bengaluru and the target areas of slums.
